CAREER OBJECTIVE

Aspiring Data Analyst and Software Development Engineer pursuing B.Tech in CSE (AI & Data Science) at Parul University, Vadodara. Skilled in Python, SQL, Power BI, and AI-driven automation with practical experience in data analytics, visualization, and intelligent system development. A strong problem-solver with a focused approach towards deriving insights from data and building reliable software solutions.

EDUCATION

Parul University, Vadodara

B.Tech – CSE (AI & Data Science) | CGPA: 6.96 / 10 | 2023 – 2027

Krishnareddy Siddhartha Junior College, Madanapalle, AP

Class XII – Science | Percentage: 68.73% | 2021 - 2023

Narayana High School, Madanapalle, AP

Class X | Percentage: 99.9% | 2020 - 2021

INTERNSHIP EXPERIENCE

Data Analytics Intern | Bold Analytics

Remote • Dec 2025 – Jan 2026

- Performed end-to-end data analysis and visualization on real business datasets to extract actionable insights.
- Used Python (Pandas, NumPy), SQL, and Excel for data cleaning, processing, and transformation.
- Designed interactive Power BI dashboards to present KPIs and visual findings to stakeholders.

PROJECTS

Movie Recommendation System | Python, SQL, Excel, Power BI, NumPy, Pandas, Scikit-learn

- Cleaned and processed raw movie datasets using Python and Excel; Built a content-based movie recommendation system recommending similar movies using cosine similarity and Scikit-learn.
- Designed an interactive Power BI dashboard to visualize trends, genre patterns, and recommendation results.

Healthcare Appointment Booking via WhatsApp AI Agent | Gemini AI, WhatsApp Cloud API, Google Sheets, HTML/CSS/JS, Docker

- Built an AI-powered workflow allowing patients to book, view, and cancel hospital appointments directly through WhatsApp.
- Integrated Google Gemini AI for natural language understanding, n8n for automation, and Google Sheets as a database; deployed via Docker.

TECHNICAL SKILLS

Languages & Tools: Python, Java, SQL, HTML, CSS, JavaScript

Data Analytics Tools: Excel, Power BI

Libraries: Pandas, NumPy, Scikit-learn

AI & Automation: Google Gemini AI, Meta WhatsApp Cloud API, Docker

CS Fundamentals: Data Structures & Algorithms – Arrays, Strings, Hashing, Linked Lists, Stack, Queue

CERTIFICATIONS

- Tata GenAI Powered Data Analytics – Forage
- Data Visualization: Empowering Business with Effective Insights – Tata / Forage
- Deloitte Data Analytics Job Simulation – Forage

LANGUAGES & SOFT SKILLS

Spoken Languages: English (Professional) | Hindi (Basic) | Telugu (Native)

Soft Skills: Problem Solving | Communication | Team Collaboration | Time Management
